Bowers Theree.—This evening is set apart for the benefit of Mr. Tilton, long and favorably known at this establishment as a very good actor. It is expected his friends will use their exertions to give him a subtantial testimony of their estoem for his abilities. The programme is one of great attruction, and will likely draw an immense house. The fart piece is Shakepeare's tragedy of "Macbeth." The character of Macbeth by Mr. Eddy; that of Macdeth, by Mr. Tilton, and Lady Macbeth, by Miss C Wemyss; and the other characters by a very talented company. Miss Hiffert will sing on of her admirable songe, and Mr. Leffingwell will sing a comic song. The terminating feature will be the popular drama of "Micheel Erle," the character of that name being sustained by Mr. Tilton. From the attractive features of this bill, and the receipts being for a very popular actor, who has, for many years, been contributing to the amusement of the dramatic public, we have no doubt but the house will be crowded.

Broadway Theatre—This is announced as the least week of the performance of "Az act the Prodigal Son," and to those who have not seen it, we would say it is a rich treat, which should not be lost. Those who have already witnessed it, will find that they can appreciate its many beauties of scenery, dialogue and dramatic incident, far better on a second or third visit. The play has never failed to lay hold upon the hearts of the audiences, and always leaves a strong impression on the mind in favor of virtue, temperance, and fidelity. Who can witness the appalling picture of the voluptuous prodigal, presented by Mr. Conway, without being warned of the dangers into which Azael has been drawn by waywardness and folly? His impersonation of the Prodigal Son is a masterly piece of acting, equally effective throughout, and artistically beautiful where he defends his betrothed from the idolaters, and them having rescued her, offers himself as the sacrifice. Miss Anderton, and Mr. N. B. Clark, enact their parts in admirable application of t

the Ravels, who are the greatest favorites that have ever played in this city, appearing three evenings in the week, and Burton's celebrated company the other three.

NATIONAL THEATRE.—This evening is set apart for the benefit of Mr. H. Watkins, who is an undoubtedly talented actor, and has become a general favorite with the patrons of this flourishing theatre—the entertainments selected being exceedingly attractive, consisting of a New York drama, a sterling play, and a capital farce, we hope his friends and the public will handsomely patronise him. Those sterling artists and great favorites, Mr. J. R. Scott, Mrs. Melinda Jones, and Mr. Jefferson, as comedians of great celebrity, are to appear, supported by the entire strength of the popular company. The performance will commence with the play, entitled the "Fall of Tarquin," in which Mr. Scott and Mrs. Jones will appear. This will be followed by the laughable farce of "My Precious Betsey," in which Mr. Jefferson will sustain his celebrated part of Mr. Bobtail; and the amusements will terminate with a new local drama, called the "Heart of the World, or Life's Struggle in a Great City," in which Mr. Watkins will personate the principal character.

Christy's Minstrels.—This truly talented and efficient company have experienced the most unprecedented success ever known in the United States, and continue, if possible, more attractive than ever. This hall is nightly filled to overflowing with delighted and enthusiastic audiences, and their excellent performances elicit marked approbation. A fine programme of sannounced for to-night.

Fellow's Minstrels and the New Orleans Sternancers have firmly established themselves as great favorites with the public of New York. Their beautiful hall is nightly the seene of delight and admiration, being crowded to excess. The programme offered for this evening, contains some of their best songs and dances, together with the burlesque opera, "Fireman's Chaunt," and several choice instrumental pieces.

INTERESTING FROM TEHUANTEFEC.—By the arrival of the Robert Spedden we have late news from the 1sthmus of Tehuantepec, Vera Cruz, and the city of Mexico. Maj. J. A. Kelly, who was lately connected with the surveying party on the Isthmus, came over on the Robert Spedden. The Major is direct from Minatitlan, where he has been engaged for sometime in observing and noting the tides of the Coatzacoalcos. He reports that the vomito is prevailing at Vera Cruz. The American Consul, Captain Rogers, had been ill of it, but was getting better when the Spedden left. The survey of the isthmus is entirely completed, and the hydrographic party was waiting at Minatitlan for transportation home. Mr. Avery's party was expected

getting better when the Spedden left. The survey of the isthmus is entirely completed, and the hydrographic party was waiting at Minatitlan for transportation home. Mr. Avery's party was expected that Mr. Williams and his party would be ready to move from Minatitlan on the 5th instant. A portion of this party was at the Pass of Chevela at the latest accounts, and the other part was at the Cerro Encantada. Major Earnard was at El Barrio, where he was daily improving in health. He also was expected at Minatitlan by the 5th instant. The health of the members of the survey, we are glad to learn, has generally been very good.

The schooner Helen Mar, Captain Selkirk, was seized at Minatitlan, on the 19th jultimo, by the Mexican authorities. Ten soldiers and a sergeant were placed on board, and the next day the rigging was cut away. The captain entered a protest before the American Consul, J. A. Pleasants, Esq., and thus the matter stands at present. The Helen Mar had cleared at Vera Cruz for Minatitlan, and the captain was unaware that he had committed any violation of the Mexican laws. The revenue cutter Duane had gone down to the Contracoalco, the commander having given notice of his intentions to the Collector at Vera Cruz. The Sears had also left for the Coatzacoalcos. Thirty-four Californians came passengers from Vera Cruz on the Sears. They had taken the Acapulco route, and had been four months at sea, having been becalmed that length of time on the Pacific.—N. O. Delta, June 8.

A SINGULAR WOMAN.—An old lady, 90 years of age, named Elizabeth Wolfinger, died last week in Upper Dublin township, Montgomery Co., where she had long been a resident, and until within six months of her death, occupied a small house entirely alone. Upon examining the house after her decease, the neighbors found carefully stowed away in different places, no less than \$1,400, all bankable money, except a \$50 bill, together with some \$2,000 in bonds and mortgages—making in all, the snug little sum of over \$3,400. The old lady always represented herself as very poor. She was accustomed to have her taxes remitted, as it was generally believed, according to her own story, that she had only the interest of \$500 to live upon—Pkiladelphia Ledger, June 16.

The Menican Boundary Commission.—A correspondent of the Providence (R. I.) Journal, writing from El Paso, under date of April 14th, says, "the initial point on the Rio Grande has been found by the astronomers of the two commissioners and is to be established by the two commissioners next Monday, the 21st inst., and there is to be a celebration on the occasion. I was in Dona Ana a few weeks ago. The initial point is near there, some lifty-eight or sixty miles from here."

Very Small Business—White Rubber.
For some years past, the combination who are trying to monopolize the entire rubber business, have cried down and sneered at Tyer & Helm's discovery and patent of White Rubber, as "good for nothing," as "impracticable, "getting hard," "getting soft," &c., &c., to prevent the public from its use. Failing in this, and seeing its immense Ivalue caunot be smothered, the combination are now violating my patent. The Union India Rubber Company have abandoned for many entire classes of goods the English process under which they have, for years, conducted their manufacture, but fraudulently stamped "Goodyear's Patent," and commenced pirating upon my Zinc Rubber Faient, for the manufacture of white and all colored rubber goods, and in utter violation and disregard of my rights.

But the meanest part of the affair is, that they

But the meanest part of the affair is, that they stamp the goods made according to my patent, which they have so long run down, "Goodyear's Patent;" this is a clean fraud upon me, and the public, who will probably consider it as I do, very, very small business. The smallest kind of pilfering has some apology, however.

The White Rubber goods, clothing of all kinds, coats, capes, tapestry, furniture covers, piano spreads, glores, hospital skeeting, all articles for the army and navy, indeed for all purposes where rubber was ever used, my patent is a hundred fold better and handsomer than any ever before media.

The public are cautioned that I have sued for piracy the Union India Rubber Company, and must prosecute dealers if they pirate upon my patent, by seizing the goods so fraudulently made and

prosecute dealers if they pirate upon my patent, by seizing the goods so fraudulently made and stamped.

The laws of Congress impose a penalty of \$100 fine for every article so piratically stamped. This patent is my property, invented by my foreman in my employ, cost me thousands of dollars in time and money in experiments, besides four thousand dollars paid the worthy men who discovered it for their invention. No one in the trade is so stupid as not to know these goods are fast drawing all others and all other patents out of the market—hence the fresh and violent newspaper attacks and libels procured to be published against me by the combination, who are seeking in violation of every cor sideration of right between man and mar, and by the combination of capital, to rob me of my property and valuable patent rights—falsely pretending that I pirate Geodyear's patent, while they know very well that nobody uses Goodyear's patent anywhere. I also have suits commenced to cover over \$300,000 damages, for their pirating of my shirred goods patents—which, sooner or later, they must pay over.

Is not this piracy and stamping "Goodyear patent" upon my patent rather small business for a wealthy combination to be guilty of! Will they deny it! Will they give me a chance to prove it! No, for they dare not come to trial upon any of the main questions again, since my recent verdict and judgment at Trenton, the cost of which I cannot as yet collect. With three large factories which will soon be greatly increased. I hope to supply more rapidly all the orders for my most valuable white rubber fabries.

"I'HE MARRIED WOMAN'S PRIVATE MEDICAL COMpanion—By Dr. A. M. Mauriceau, Professor of Diseases
of Wemen—Twentieth edition, 15mo., pp. 250—Price 31.—
Years of causticing, of physical and mental anguish to many
an affectionate wife, and pseumiary difficulties to the husband, might have been spared by a timely possession of this
work. It is intended especially for the married, or these
contemplating marriage, as it discloses important secreta,
which should he known to them particularly.
To those whose health does not permit of an increase of
family, it is of especial importance,
Here, also, every female—the wife, the mother—the ona
eithor budding into womanhood, or the one in the decline of
years, in whom nature contemplates an important change,
can discover the causes, symptoms, and the most efficient
to which her sex is subject.

to which her sez is subject.

(Extract of a Letter from a Gentleman in Dayton, Ohio.)

DR. A. M. MAURICKAU:

My DRAR Sin: — My wife has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during her continuenced; every successive one more and more dobilitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. At this ime (now about two months,) I heard your book highly spoken of, as containing some matter; reaching my case. On its receipt and perusal, I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desemeaux provided a remedy. If yound a prospect to me, which I little conceived was possible. But for this, ere another year would have passed over my head, in all human probability, my wife would have been in her grave, and my children left motherless.

It is, of course, impracticable to convey more fully the various subjects treated of, as they are of a nature strictly introduced for the married, or those contemplating marriage.
